With respect to those policies that contain an Interruption by Communicable Disease Endorsement, while Insurers have received your responses to inquiries posed, we have not received sufficient information to confirm that access was prohibited to an insured location as a result of the actual presence of and spread of communicable disease; and, that, the prohibition of access to the location was a result of an order of civil authority regarding the same. Specifically, the provision provides:

INTERRUPTION BY COMMUNICABLE DISEASE

This policy is extended to cover the reasonable and necessary expenses incurred by the Insured to:

- a) Clean up, remove and dispose of communicable diseases from the insured property at a described location; and
- b) Restore the premises;

In a manner to satisfy the minimum requirements of any law or ordinance regulating communicable diseases. This policy is also extended to cover business interruption (if provided) loss directly resulting from items a) and b).

All coverage above must be directly resulting from access being prohibited to a described location or any portion thereof:

- a) Due to the actual presence of and the spread of communicable diseases at that described location; and
- b) As a direct result of a declaration by a civil authority enforcing any law or ordinance regulating communicable diseases.

For the purpose of this extension, the presence of and the spread of communicable diseases will be considered direct physical damage and the expenses listed in items a) and b) above will be considered expenses to repair such damage. There will be no coverage to comply with any law or ordinance with which the Insured was required to comply had the direct physical damage not occurred.

Based on the information submitted to date, the incidents currently at issue in this claim are those arising from possible exposure, presumed exposure, or in connection with someone who may have been diagnosed with COVID-19. Additionally, with respect to the potential exposure to individuals who may have tested positive for COVID-19, no information has been provided as

to the timing or timeframe of such exposure(s), or the relationship, if any, of that specific incident of potential exposure to the closure of a location by an applicable order of civil authority. Insurers have also not yet received information concerning the alleged presence or spread of COVID-19 at an insured location; or information to indicate that 24 Hour Fitness received a declaration by a civil authority enforcing any law or ordinance regulating communicable disease as a result of the actual presence of and the spread of communicable diseases at an insured location.

Towards that end, we would ask that you provide information that is responsive to the following additional requests for information.¹:

- Please provide any and all information in your possession relative to the actual presence of COVID-19 at an insured location²;
- Please provide any and all information in your possession relative to the spread of COVID-19 at an insured location.
- To the extent that COVID-19 was determined to be actually present at an insured location, please provide any documents, Incident/Accident Report or any other written documentation (electronic or otherwise) memorializing the event/incident and/or presence of COVID-19 at or within an insured location which you would like Insurers to consider;
- Please provide any order of civil authority which mandated the closure of insured location as a result of COVID-19(to the extent this information has only been partially provided); and
- With respect to those locations where access was prohibited due to the actual presence of and the spread of COVID-19 at an insured location, please provide any and all receipts for any clean up, removal expenses and costs to restore the premises, if any.
